MATERIAL SAFETY DATA SHEET

MANUFACTURERS' NAME:

ADVANCED COATINGS & CHEMICALS

DATE OF PREPARATION:

7-14-8

Subsidiary of Olin/Hunt Specialty Products, Inc. 4343 Temple City Blvd. Temple City, CA 91780

ERGENCY PHONE NO:

(818) 579-6270

SECTION I - PRODUCT IDENTIFICATION

PRODUCT FORMULA:

46C - 1

PRODUCT NAME:

TEXTURING, Bodying Agent

PRODUCT CHEMICAL FAMILY: AQUEOUS SOLUTION POLYMER

	SECTION II - HA			
INGREDIENTS	CAS	EXPOSURE LIMITS IN AIR		IARC, NTP
	NUMBER	OSHA PEL	ACGLH TLV	OSHA HAZARD- EVALUATION
MMONIUM POLYACRYLATE	9003-03-6	Not Est.	Not Est.	Non-Carcinogenic
·				

Page 2	
SECTION III	- PHYSICAL DATA
BOILING POINT: 212°F Water	SPECIFIC GRAVITY: 1.02
VAPOR DENSITY (AIR=1): Heavier	% VOLATILE BY VOLUME: 93
SO! ILITY IN WATER: Miscible	EVAPORATION RATE: Slower
VAPOR PRESSURE @ 20°C 17 mm.Hg.	(BUTYL ACETATE = 1)
SECTION IV - FIRE AN	D EXPLOSIVE HAZARD DATA
FLASH POINT: Not Applicable LEL:	N.A. % by Volume UEL: N.A. % By Volume
EXTINGUISHING MEDIA: Foam, Dry Chemical, CO ² and/or Water FUNUSUAL FIRE AND EXPLOSION HAZARDS:	og
During a fire, irritating and toxic gases and smoke are open flames. Closed containers may burst when exposed to between the upper and lower explosive limits. SPECIAL FIREFIGHTING PROCEDURES: Full emergency equipment fire fighters.	present from decomposition. Isolate from heat, sparks and to extreme heat. Vapors form an explosive mixture in air with self-contained breathing apparatus should be worn by
	HEALTH HAZARD DATA
Eyes: Can cause severe irritation, redness, tearing and SKin: Prolonged or repeated contact can cause irritation Inhalation: Dizziness, breathing difficulty, headaches a Ingestion: Damage to throat and esophagus, vomitting and	n. Defatting to skin. and loss of coordination.
MED '. CONDITIONS PRONE TO AGGRAVATION BY EXPOSURE: Asthm	a, respiratory tract irritation, dermatitis. Kidney
and liver problems, conjunctivitis.	
PRIMARY ROUTES OF ENTRY: Dermal, inhalation, ingestion.	
EMERGENCY AND FIRST AID PROCEDURES:	
Eye Contact: Flush with large amounts of water for 15 mi Skin Contact: Wash thoroughly with soap and water. See a Inhalation Over Exposure: Move person to fresh air. If t immediate medical attention. Ingestion: Do not induce vomitting. Can cause chemical p	a doctor.
OTHER HEALTH HAZARDS: EFFECTS OF CHRONIC OVEREXPOSURE:	
EYES: Blurred vision. Conjunctivitis. SKIN: Sensitizat	ion, dermatitis. INHALATION: Asthma-like symptoms.
Central nervous system effects. INGESTION: Damage to th	roat. Possible kidney and liver impairment.
SECTION VI -	- REACTIVITY DATA
STABILITY: Stable	

HAZARDOUS POLYMERIZATION: Will not occur.

HAZAPPOUS DECOMPOSITION PRODUCTS:

Coon monexide; carbon dioxide, exides of nitrogen, various hydrocarbon and acrid fumes.

CONDITIONS TO AVOID:

Excessive heat, poor ventilation. Corrosive atmosphere, excessive aging, sparks and open flames.

INCOMPATIBILITY (MATERIAL TO AVOID): Alkaline materials, strong acids and oxidizing materials. SECTION VII - SPILL OR LEAK PROCEDURES STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED: Eliminate ignition sources; provide good ventilation; dike spill area and add absorbent material to spilled liquid. Theoroughly wet with water and mix. WASTE DISPOSAL METHOD: Collect absorbent/water/spilled liquid mixture into metal containers and add enough water to cover. Consult local, state and federal hazardous waste regulations before disposing into approved hazardous waste landfills. Obey relevant laws. SECTION VIII - SAFE HANDLING AND USE INFORMATION RESPIRATORY PROTECTION: When spraying and/or printing this material, use a niosh-approved cartridge respirator or gas mask suitable for airborne mists and vapor concentrations below the time-weighted threshold limit values. When using in poorly ventilated and confined spaces, use a fresh-air supplying respirator or a self-contained breathing apparatus. VENTILATION: General mechanical ventilation or local exhaust should be suitable to keep vapor concentration below TLV. Ventilation equipment must be explosion proof. PROTECTIVE GLOVES: Impermeable chemical handling gloves for skin protection. OTHER PROTECTION: Use chemical safety glasses, goggles and face shields for eye protection. OTHER PROTECTIVE GUIPMENT: ie impermeable aprons and protective clothing when ever possible to prevent skin contact. The use of head caps when ever possible is strongly recommended. HYGIENIC PRACTICE: Eye washes and safety showers in the work place is recommended.
SECTION VII - SPILL OR LEAK PROCEDURES STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED: Eliminate ignition sources; provide good ventilation; dike spill area and add absorbent material to spilled liquid. Theroughly wet with water and mix. MASTE DISPOSAL METHOD: Collect absorbent/water/spilled liquid mixture into metal containers and add enough water to cover. Consult local, state and federal hazardous waste regulations before disposing into approved hazardous waste landfills. Obey relevant laws. SECTION VIII - SAFE HANDLING AND USE INFORMATION RESPIRATORY PROTECTION: When spraying and/or printing this material, use a niosh-approved cartridge respirator or gas mask suitable for airborne mists and vapor concentrations below the time-weighted threshold limit values. When using in poorly ventilated and confined spaces, use a fresh-air supplying respirator or a self-contained breathing apparatus. VENTILATION: General mechanical ventilation or local exhaust should be suitable to keep vapor concentration below TLY. PROTECTIVE GLOVES: Impermeable chemical handling gloves for skin protection. EYE PROTECTIVE EQUIPMENT: is impermeable aprons and protective clothing when ever possible to prevent skin contact. The use of head caps when ever possible is strongly recommended.
STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED: Eliminate ignition sources; provide good ventilation; dike spill area and add absorbent material to spilled liquid. Thiroughly wet with water and mix. MASTE DISPOSAL METHOD: Collect absorbent/water/spilled liquid mixture into metal containers and add enough water to cover. Consult local, state and federal hazardous waste regulations before disposing into approved hazardous waste landfills. Obey relevant laws. SECTION VIII - SAFE HANDLING AND USE INFORMATION RESPIRATORY PROTECTION: When spraying and/or printing this material, use a niosh-approved cartridge respirator or gas mask suitable for airborne mists and vapor concentrations below the time-weighted threshold limit values. When using in poorly ventilated and confined spaces, use a fresh-air supplying respirator or a self-contained breathing apparatus. VENTILATION: General mechanical ventilation or local exhaust should be suitable to keep vapor concentration below TLY. PROTECTIVE GLOVES: Impermeable chemical handling gloves for skin protection. EYE PROTECTION: Use chemical safety glasses, goggles and face shields for eye protection. OTHER PROTECTIVE EQUIPMENT: ie impermeable aprons and protective clothing when ever possible to prevent skin contact. The use of head caps when ever possible is strongly recommended.
Eliminate ignition sources; provide good ventilation; dike spill area and add absorbent material to spilled liquid. Thoroughly wet with water and mix. WASTE DISPOSAL METHOD: Collect absorbent/water/spilled liquid mixture into metal containers and add enough water to cover. Consult local, state and federal hazardous waste regulations before disposing into approved hazardous waste landfills. Obey relevant laws. SECTION VIII - SAFE HANDLING AND USE INFORMATION RESPIRATORY PROTECTION: When spraying and/or printing this material, use a niosh-approved cartridge respirator or gas mask suitable for airborne mists and vapor concentrations below the time-weighted threshold limit values. When using in poorly ventilated and confined spaces, use a fresh-air supplying respirator or a self-contained breathing apparatus. VENTILATION: General mechanical ventilation or local exhaust should be suitable to keep vapor concentration below TLY. PROTECTIVE GLOVES: Impermeable chemical handling gloves for skin protection. EYE PROTECTION: Use chemical safety glasses, goggles and face shields for eye protection. OTHER PROTECTIVE EQUIPMENT: se impermeable aprons and protective clothing when ever possible to prevent skin contact. The use of head caps when ever possible is strongly recommended.

OTHER PROTECTIVE EQUIPMENT: se impermeable aprons and protective clothing when ever possible to prevent skin contact. The use of head caps when ever possible is strongly recommended.
se impermeable aprons and protective clothing when ever possible to prevent skin contact. The use of head caps when ever possible is strongly recommended.
wnen ever possible is strongly recommended.
HYGIENIC PRACTICE: Eye washes and safety showers in the work place is recommended.
SECTION IX - SPECIAL PRECAUTIONS
PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING:
Use non-sparking utensils when handling this material. Avoid hot metal surfaces. Use in cool, well-ventilated areas. Keep containers closed when not in use. Keep away from excessive heat and open flames.
OTHER PRECAUTIONS:
Smoking in areas where this material is used should be strictly prohibited. Tools used with this material should be aluminum, brass or copper. Plastic tools should not be used. Since emptied containers retain product residues, (vapors, liquid and/or solid) all hazard precautions should be observed.
SECTION X - TRANSPORATION DATA
PROPER SHIPPING NAME: PAINT UN 1263 WATER REDUCIBLE
DOT CLASSIFICATION: Non-Hazardous DOT LABEL: Non Red
PRECAUTIONS TO BE TAKEN IN TRANSPORTATION: Refer to Section IX Keep from Freezing
NOTE: THIS INFORMATION IS ACCURATE TO THE BEST KNOWLEDGE OF ADVANCED COATINGS & CHEMICALS COMPANY, BUT IS FURNISHED WITHOUT ANY EXPRESSED OR IMPLIED WARRANTIES.
